Correnso & Project Martha Community Meeting

This meeting is designed to provide an update to affected residents within the Correnso and Project Martha (including Rex) mining areas about works undertaken since the previous meeting.

Due to ongoing Alert Level restrictions, if the Waihi area remains at Alert Level 2, we will be holding the meeting on Thursday the 4th of November from 5:30 to 7:30 pm.

The meeting will be held at the St. James Presbyterian Church, 76 Moresby Ave, with strict social distancing requirements.

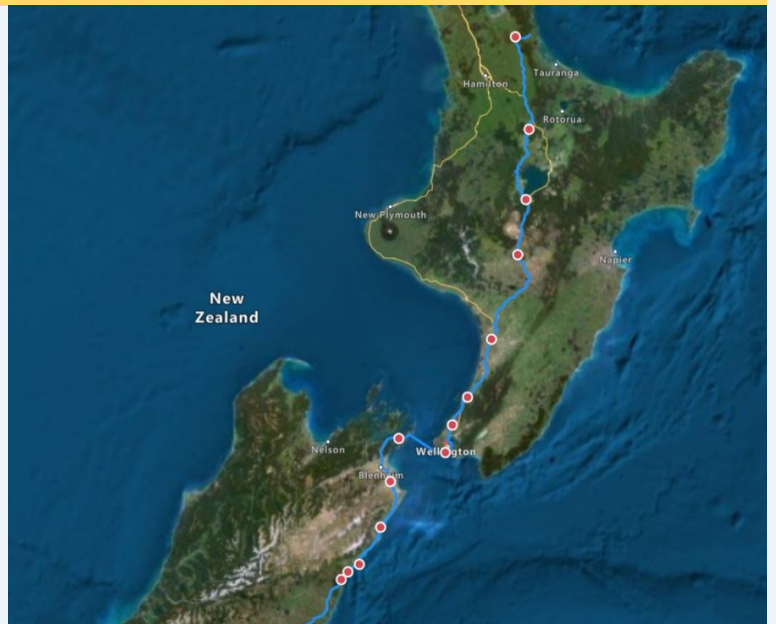

Anyone wishing to attend must first RSVP to waihi.info@oceanagold.com or 0800 924 444 as availability will be determined by spacing capacity.

Martha to Macraes Health Challenge

Back in July, a health initiative for the Waihi team was initiated by Waihi local and OceanaGold Project Geologist – Resource Development, Charlotte.

The challenge was simple – complete as many Martha Open Pit laps (as a team) as it would take to get from the Martha to our friends down at the OceanaGold Macraes Operation by Christmas. According to Google Maps, it is 1,336kms (830 miles) to get from Martha Mine to Macraes, which is the equivalent of 334 pit laps.

As of late October, 223 laps have been completed, equalling almost 900km and 2/3 of the total distance required. As shown on the map, the team have now completed the equivalent of passing Kaikōura in the South Island. With some participants individually accounting for over 100km each, it's safe to say the challenge is coming along nicely!

Recently, a blessing was performed at dawn on a new Sandvik Jumbo drill for the Waihi site by representatives from the Waihi Community Marae as a final part of the drill's commissioning process.

With the help of kaumatua and kuia, any tapu is removed, ensuring the Jumbo is kept in good health.

Our thanks go to Tim Ainsley, Tuihana Jack-Ainsley, and Te Awhi Cooper for leading the blessing and to OceanaGold staff for helping to complete the ceremony.
