The Social Impact Management Plan Report

Since 2015, OceanaGold Waihi have commissioned and released our Social Impact Management Plan (SIMP) Report. This report is an independent review of our social effects within the local and wider communities.

The SIMP report has been developed and revised over the years through an iterative process involving OceanaGold, the Hauraki District Council, and in consultation with various stakeholders, including Waihi residents, community representatives, local business owners, and the operation's workforce.

The SIMP report is structured around six main themes: Economy, Employment, Property, Community, Health and wellbeing, and the Future of Waihi and the OceanaGold NZ legacy. Some key findings from the SIMP report for 2020 are included here.

Correnso & Project Martha Community Meeting

Due to ongoing COVID-19 Alert Level restrictions, we have postponed our planned Correnso and Project Martha Community meeting originally scheduled for 02/09/2021 at 5:30pm. We will confirm a new date and time when possible through our regular channels. Apologies for the inconvenience and we look forward to catching up with the local community when it is safe to do so.

This meeting is designed to provide an update to affected residents within the Correnso and Project Martha (including Rex) mining areas about works undertaken since the previous meeting.

While the meeting was created specifically for affected residents in these areas, it is also open to any and all members of the public who wish to attend.
