Community Opinions About Mining

From now through until the end of the year, if you live in the Waihi area you may get a phone call on your landline or mobile phone from a survey company called Phoenix Research, asking for your opinion on a few topics relating to mining.

Each year we get an independent survey company to ask people chosen at random how they think we are doing, what we can improve on, and how things are in Waihi in general. The data collected forms part of the Social Impact Management Plan (SIMP) which is required as part of our consent conditions.

The survey is anonymous. OceanaGold gets a table of the results, but any identifying details are first removed, meaning we don't know who said what. How do survey companies get in touch? They call people in and around Waihi from listings with the numbers and the area in which the person lives. The purpose of this is to provide full and representative coverage of the community. We welcome your feedback and encourage you to participate if selected.

If you have any questions about the survey process, please feel free to get in touch on our Community Engagement Line. Ph: 0800 924 444, or via our website: waihigold.co.nz
