

30 YEARS OF GOLD

FIREWORKS DISPLAY

7pm on Friday 8 June

The *30 years of Gold Fireworks Display* will start around 7.00pm on Friday 8 June. While you will be able to see it from most parts of Waihi, the best viewpoint will certainly be around the pit rim. Go Waihi has organised food stalls and coffee carts which will be selling hot food and drink in the area around the Cornish Pumphouse. They are also planning some music to add to the festivities. If the event has to be postponed due to wind or rain it will be rescheduled to Saturday 9 June at the same time. Any postponement will be advised on local social media, Gold FM, and the OceanaGold Facebook page.

THE FIRST GOLD POUR

from the modern Martha Mine was 30 years ago. Since then over 33,500 bars of gold and silver have been poured. To celebrate the 30-year milestone, OceanaGold is inviting you to a giant community fireworks display at the Martha open pit.

Thanks
Waihi

Public Notice

30 YEARS OF GOLD FIREWORKS DISPLAY

OceanaGold Waihi will be holding a community fireworks display above the Martha open pit at approximately 7.00pm on Friday 8 June. The display will last for about 20 minutes. If the event cannot proceed due to rain or high wind it will be rescheduled to Saturday 9 June at the same time.

This will be a large display. We suggest that owners of dogs and cats keep their animals inside for this 20 minute period, and that owners of horses or other animals in the vicinity move these well away from the open pit.

For further details please contact us on 0800 WAIHIGOLD
