Vibration events

Did you know that you can monitor vibration events on our website? Click on the link on this page www.waihigold.co.nz/updatesreports/mine-blast-results/ and then move your computer mouse over the monitoring locations shown as blue dots on the map to display up-to-date vibration events. You can use the wheel on your mouse to zoom in and then hold down the left mouse button and drag to scroll around the enlarged image.

 Unverified Vibration Event
 Underground Provisional Event
 Open pit Provisional Event

External Affairs & Social Performance staff are currently visiting residents and owners of properties above the Rex orebody. The Rex Mine Plan will be available at the next Project Martha Community Meeting which will be held on Thursday 10 December at 3.00pm at the Education Centre, corner of Moresby Avenue and Savage Road. Please do not hesitate to contact us on 0800 WAIHIGOLD (0800 92 44 44) before then if you require additional information.

NOVEMBER

KEY

- Existing mining
- Planned mining
- Backfill
- Stopes
